

NEW EQUIPMENT FOR C. & O. RAILWAY

Three Thousand Large Coal Cars to Be Delivered Within Sixty Days.

WILL RELIEVE COAL FIELDS

Railway Clerks on Southern Pacific Win Their Strike and Receive Increase

The Chesapeake and Ohio has an order with the various car-builders for 3,000 new, mostly coal gondolas. These cars have been ordered, and every day from ten to thirty reach the road. The gondolas are of fifty tons capacity, and will do much to stop the car famine at the Kanawha and New River mines in West Virginia. The Chesapeake and Ohio has had great trouble recently with the coal car shortage, for on account of the lack of ships at the seaboard the cars have been kept loaded at the coast, and the mine-owners have suffered accordingly.

The report of the Southern for the fiscal year ended June 30th reflects, in the matter of gross earnings, the most prosperous year in the history of the company. These amounted to \$14,611,428, an increase of \$1,450,000 over the previous year of \$13,161,428. Despite this favorable showing, net earnings amounted to only \$2,845,790, representing an increase of but \$400,000, due to an expansion in operating expenses of \$1,450,000, those totaling \$1,450,000. The surplus, after charges, applicable to dividends, amounted to \$1,450,000, an increase of \$174,432. After the payment of five per cent dividends on the preferred stock, there was a balance of \$1,275,568, equal to 1.85 per cent earned on the \$120,000,000 common stock.

In the eighth annual report of the Baltimore and Ohio Railroad Company, President Charles D. Murray, significantly says that the fiscal year ended June 30th was marked by a continuance of satisfactory business conditions throughout the country, as reflected in the summary of business, earnings, etc. The report is a good one, and it is to be expected that the year will be a profitable one for the company.

The Washington term, rapidly near, competition, will be one of the great points of discussion of the world. The cost of the Washington term, rapidly near, competition, will be one of the great points of discussion of the world. The cost of the Washington term, rapidly near, competition, will be one of the great points of discussion of the world.

The lines in the Southwestern Association have been in fact, resulting forth with, and the construction material to be used in the coming season. The report is a good one, and it is to be expected that the year will be a profitable one for the company.

The statement for the past year of the Baltimore and Ohio Railroad Company, President Charles D. Murray, significantly says that the fiscal year ended June 30th was marked by a continuance of satisfactory business conditions throughout the country, as reflected in the summary of business, earnings, etc. The report is a good one, and it is to be expected that the year will be a profitable one for the company.

Beginning next week, the Atlantic Coast Line will operate a special car once a week between Norfolk and Jacksonville, Fla., to handle better and cheaper only. The route will be via the Atlantic Coast Line.

The directors of the Norfolk and Western at their meeting in Philadelphia last week, passed the common stock of the company upon a five per cent basis, an advance of one per cent over the existing rate, by a semi-annual declaration of two and a half per cent. The previous declaration was at the rate of four per cent a year. Dividends on the stock were first paid in 1901, at the rate of two per cent; two and a half per cent, each in 1902 and 1903, and in 1904 the stock was placed on a four per cent basis.

Mr. William B. Hargis, president of the Boarding of Railway Clerks, is authorized by the statement that the 1,000 strike freight clerks of the Southern Pacific have won their strike, and will in future receive increased pay, additional pay for overtime, and exemption from Sunday work.

A War Story.

The November number of the Southern Magazine, published here, will contain, among many other very interesting and interesting stories, one entitled "Sunbowd During the Civil War" by Mrs. Nellie H. Owen, of this city, who has from time to time contributed to this and other Southern papers.

S.S.S. CURES ECZEMA

The real cause for Eczema is the presence of humors and sour acids in the blood. These impurities get into the circulation because of imperfect action of those members of the system whose duty it is to collect and carry off the refuse and waste of the body. As this effete matter lies in the system it ferments and generates acid humors which are absorbed into the blood, overcharging this vital fluid with acid. In its effort to keep the system healthy the blood throws off the humors through the pores and glands of the skin, causing this tormenting skin disease. The escape of acids and humors through the pores and glands irritates and burns the skin, producing pustules filled with a clear, sticky fluid, which dries in crusts and patches causing the most intense itching, and often pain. The trouble is in the blood, and S. S. S. is the remedy for Eczema, because it is a real blood purifier. It goes down into the circulation, removes all acids and humors and makes the blood rich, pure and healthy. When S. S. S. has done this the symptoms pass away, the blood is cooled and the disease cured permanently. Nothing acts so promptly or pleasantly in all skin diseases as S. S. S., and it is at the same time a fine tonic to the entire system. Book on Skin Diseases and medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

How to Exercise the Bowels

OUR Intestines are lined inside with millions of suckers, that draw the Nutrition from food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition. This Poison makes a Gas that inflates your system more than the food should have nourished it.

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely makes slippery the passage for unloading the current cargo.

It does not help the Cause of delay at all. It does slacken the Bowel-Muscles, and weakens them for their next task.

Another remedy is to take a strong "Physic," like Salts, Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed.

What does the "Physic" do? It merely flushes-out the Bowels with a waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

Cascarets are the only safe medicine for the bowels. They do not waste any precious fluid of the Bowels, as "Physics" do.

They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine. They simply stimulate the Bowel-Muscles to do their work naturally, comfortably, and nutritiously.

They are put up in thin, flat, round-cornered Enamel boxes, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble.

The time to take a Cascaret is not only when you are Sick, but when you first suspect you need one. Price, 10c a box.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC." All druggists.

GEORGE W. CABLE TO WED KENTUCKY GIRL

Famous Author of "Old Creole Days" Will Marry This Month.

LEXINGTON, KY., October 31.—An announcement was made here today that Miss Gertrude L. Brinkhaus, of this city, formerly of Cincinnati, is to be wedded in November to Mr. George W. Cable, author and lecturer. She is said to have met him here while he was being entertained following one of his lectures. Miss Stevenson has not been here for several months. She has been at Atlantic City, but it is understood the ceremony will be performed in the East, and that the couple will go to live at Mr. Cable's home in Northampton, Mass.

Tall and slender, with hair turning gray, the bride to be has always taken a prominent part in the events, and is not only a devoted wife, but a devoted mother. She is said to be present with the bride, and that the couple will go to live at Mr. Cable's home in Northampton, Mass.

Dr. Mitchell on Movement. In treating of Greek architecture in my class to-day it was of exceeding advantage that the students could be pointed to the graceful Doric portion of the Jewish synagogue, the Ionic front of the Capitol and the Corinthian brow of the Second Baptist Church, and the various other classic forms. In addition to the valuable Museum, which is a rich collection of statues and objects which put constantly every teacher and pupil in the city under the highest of education. Hence the admirable purposes of the Times-Dispatch to place replicas of the most famous pieces of sculpture in the various schools of the city is a new asset in our education, for which all are grateful.

YEOMANS DEAD.

Former Member of Interstate Commerce Commission.

WASHINGTON, October 31.—James D. Yeomans, formerly a member of the Interstate Commerce Commission, died today of a complication of diseases. He was sixty-one years old. Mr. Yeomans took part in many of the important cases brought before the Interstate Commerce Commission. He was a native of Wyoming county, N. Y., and had considerable experience in the railroad world. He entered the railway service early in life, becoming identified with different railroads, and later on became general superintendent of the Olean, Bradford and Warren Railway. In the latter part of his career he was identified with railroad building in New York, Pennsylvania and Michigan. Mr. Yeomans, as he was familiarly known, had a wide acquaintance with public men and prominent citizens here, and was universally esteemed.

SOUTHERN IRON MARKET.

Great Strength in Iron Markets of the South.

Regarding the strength of iron in the Southern markets a well known capitalist, interested in Southern iron-producing companies, said yesterday: "Advices from Birmingham, Ala., indicate great strength in the iron market there. One of the largest producers has advanced the price of the No. 2 quality of pig iron from \$10.00 to \$10.50 a ton. The indications are that there is still a large amount of iron to be bought by consumers, for the first quarter of 1907, and that a further advance in this already very high market is more than likely."

A War Story.

The November number of the Southern Magazine, published here, will contain, among many other very interesting and interesting stories, one entitled "Sunbowd During the Civil War" by Mrs. Nellie H. Owen, of this city, who has from time to time contributed to this and other Southern papers.

ART TREASURE AS GIFT TO SCHOOLS

Dr. S. C. Mitchell, Prominent Educator, Highly Commends the Patriotic Plan.

Next Sunday's issue will contain the first coupon in the series for The Times-Dispatch contest for the magnificent collection of sculpture to be awarded by popular vote to the public schools of the city.

Replicas of many of the world's most famous art treasures, themselves of great value, are to be awarded to the schools which are successful in the competition. Beginning next Sunday and continuing about two months, four of these collections are to be awarded as first, second, third and fourth prizes to the schools securing the highest number of votes, and in addition three individual pieces of sculpture are to be awarded to the fifth, sixth and seventh competitors, thus giving recognition to at least a portion of this decorative art.

Adorn Schools. The primary purpose of the distribution of these replicas among the schools of this city and Manchester is the adornment of the school-rooms, but the greater purpose is the influence upon the minds of the pupils exerted by these masterpieces of art in the stimulation of the love of beauty in the young. The replicas were made with this view, and selections were made with this view, and in order that their might be no adverse criticism, specimens of the nude were omitted, and only those included which have both merit and modesty to commend them. The figures, some of them of fine length and even heroic, are all draped artistically. A list of the subjects and a classification of them into seven collections as they will be awarded was published yesterday and will be reproduced on Sunday.

For Love of Art. Miss Gertrude L. Brinkhaus, who has charge of this contest, is an educator of long experience, and has entered upon this work through her zeal in her high calling and for the good that she may accomplish. She originated the plan, and appealed to great newspapers in the leading cities to aid her in installing specimens of classic architecture where they might beautify the surroundings of a school children and thereby appeal to and arouse all that is highest and best in the pupils. She will have one of more of these art replicas in her office on the third floor of The Times-Dispatch building when she opens her office there in a few days, and will invite teachers and art lovers to inspect them, confident that this alone will evoke their enthusiasm in the contest.

Besides the four collections and the individual pieces of sculpture to be awarded by coupon vote to the public schools of this city and Manchester, another fine collection and three individual pieces are to be awarded to the private school receiving the greatest number of votes among such schools competing.

All Commend Plan.

The commendation of artists and educators is practically universal, and The Times-Dispatch's efforts are fully appreciated. These art treasures are a gift to the schools from The Times-Dispatch. The patrons of the paper and the teachers, pupils and patrons of the schools are to decide to what schools these prizes are to go. The conditions of the contest will be fully set forth in next Sunday's Times-Dispatch, and the first coupon will appear. Then the lively competition already assured will have begun, and those getting to work early on behalf of their school are most likely to win.

As an evidence of the value of these gifts to the schools and of the influence they will exert on the young, the following statement from Dr. S. C. Mitchell, one of Virginia's foremost educators, is eloquent testimony.

Dr. Mitchell on Movement. In treating of Greek architecture in my class to-day it was of exceeding advantage that the students could be pointed to the graceful Doric portion of the Jewish synagogue, the Ionic front of the Capitol and the Corinthian brow of the Second Baptist Church, and the various other classic forms. In addition to the valuable Museum, which is a rich collection of statues and objects which put constantly every teacher and pupil in the city under the highest of education. Hence the admirable purposes of the Times-Dispatch to place replicas of the most famous pieces of sculpture in the various schools of the city is a new asset in our education, for which all are grateful.

For our children to grow up with the beautiful images of these classic forms ever before them means far more than one might at once conclude. They will body forth Greek life; they will realize the Greek spirit; they will tend to be Greek in their emotions; they will tend to be Greek in their art. In keeping with the fine work now being done by some of Richmond's artists. No more precious gift can be made to the children of Richmond than five specimens of Greek genius.

DEMOCRATS WILL BE ACTIVE TO-NIGHT

Montague at Danville; Lamb at Chester; Daniel and Flood.

Practically the last grans of the Democratic congressional campaign in Virginia will be fired to-night, and the remaining few days of the campaign will be devoted to arranging for getting the voters to the polls. The most prominent appointments that have been announced for to-night are Hon. A. J. Montague, at Danville; Hon. John W. Daniel and Hon. H. D. Flood, at Clifton Forge; Hon. John Lamb, at Chester.

Representations are being made in Danville for Governor Montague, who will make his first speech in the campaign to his old neighbors and fellow-Democrats in his former home city. He will leave here on the 11:30 A. M. train to-day, and will reach Clifton Forge, where he will remain to-night. Congressman John Lamb will speak in his own interest at Chester to-night, at 8 o'clock, and as the meeting has been well advertised, he will likely have a good crowd. Senator Daniel and Congressman Flood will speak for the latter at Clifton Forge to-night. The district is all right for the Democrats, but Mr. Flood desires the majority to be as large as possible. But little interest is being manifested in the election save in the Fifth and Ninth Districts, and a light vote is anticipated. Under a recent act of the Legislature election days will hereafter be holidays throughout the State.

Temple of Labor.

The committee appointed recently by the Central Trade and Labor Council to look to the advisability of erecting a temple of labor in Richmond will meet

ON LOCAL MARKETS

SMALLER BREAKS OF LEAF TOBACCO

The breaks were smaller yesterday, and only about 6,000 pounds of leaf tobacco were sold on the warehouse floors. All warehousemen had breaks, and the order and condition of the offerings were much improved, but the general quality was about the same. No fancy prices were recorded yesterday, the highest goods not going over \$11.50.

It is not expected that the breaks will be any larger to-day. The sales will run as follows: First at Crossman's, second at Shook's, third at Stonehill, and fourth at Starnes'. Sales will begin promptly at 9:30.

PRODUCE MARKET: LIGHTER RECEIPTS

The receipts of country produce and fruits on the Cary Street block were light yesterday as compared with those of the two days previous, and it was well enough, perhaps, that they were, as the demand was lighter and business was slower. Apples are plentiful on the market and there are more of the commoner variety than of the higher class goods, and they have fallen off some in price. Some of these are beginning to come to market in loose cartons and lots.

Vegetables while in lighter receipt are plentiful enough to supply the demand, and no change in prices are to be noted. Chestnuts and dried fruits are coming in quite freely, and many of the former are being shipped to other markets.

MAJOR WIRZ TO HAVE MOVEMENT

Mrs. Hull Makes Report to the Daughters, Who Are in Earnest.

Antagonism, Says Mrs. Hull, Has Taken Wildest Form of Abuses.

AMERICA, GA., October 31.—At the annual meeting of the Georgia Division, United Daughters of the Confederacy, to-day a report of Mrs. A. R. Hull, of Savannah, the president, who last year inaugurated the plan to erect a monument to Major Henry Wirz, the Andersonville prison keeper, was read, in which she speaks of opposition to the plan in some sections as follows:

"There was never any object undertaken by our society that has met with such widespread interest, such loyal support and such violent antagonism. The latter has taken the wildest form, indulged in the most intense abuse, not sparing in any way the women of the Georgia division or the South in general, and we have answered never a word, but have simply gone and proved our case and mean to establish the truth forever when we unveil our monument. A campaign of education. It has been long, for I do not believe any of us knew how important we were of the history of that period until we were told this matter as we have been obliged to do in order to give an answer for the faith that was in us."

Mrs. Hull also said that a picture of Winona Davis had been placed in the directory of the Babson Georgia Industrial School, which is conducted by the Daughters of the Confederacy, and the Daughters of the Confederacy.

Quarantine Restrictions.

NEW ORLEANS, October 31.—Quarantine restrictions imposed by the Louisiana

W. B. Reduso Corsets

THE W. B. Reduso Corset restrains the tendency to over fleshiness, and moulds the over-developed proportions into those pleasing, graceful outlines hitherto thought to be attainable only by slighter figures.

The W. B. REDUSO IS CORSET-PERFECTION for LARGE WOMEN

This splendid result is attained by the important feature of an unboned apron extension which reaches down over the abdomen and hips, giving the wearer absolute freedom of movement.

This feature absolutely eliminates the necessity of any harness-like devices and straps, hitherto deemed essential on corsets of this kind.

WEINGARTEN BROS., Mfg'rs. 377-9 Broadway, New York

REDUSO STYLE 750 for tall, well-developed figures. Made of a durable coutin white or drab. Hose supporters front and sides. Sizes 22 to 36. Price, \$3.00

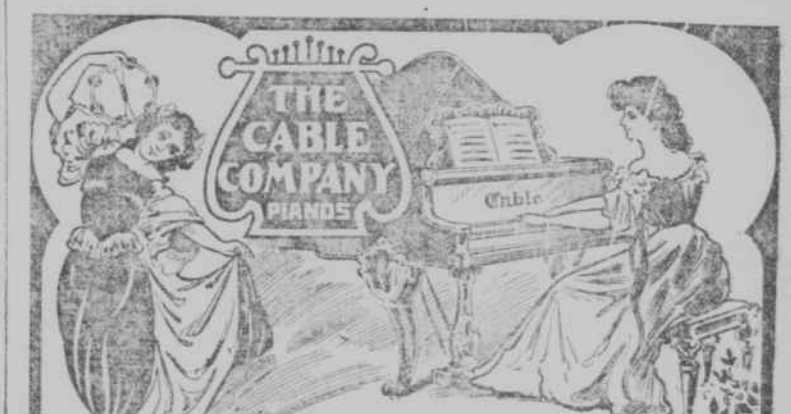

REDUSO STYLE 760 for short, well-developed figures. Made of white and drab coutin. Hose supporters front and sides. Sizes 24 to 36. Price, \$3.00

On Sale Wherever Corsets Are Sold

CROSSES OF HONOR.

Confederate Veterans to Receive Badges of Service.

The crosses of honor for Confederate veterans have been received. The following veterans will call for their crosses, and send to Mrs. N. V. Randolph, at No. 411 East Franklin Street, any time this week: W. H. Corbin, Samuel Crawford, J. J. Moore, Captain M. J. Brown, Thomas J. Willis and Joseph Vandeleur.

Look for the Trade Mark

It is the sign that the Piano has passed the severest tests, and that it is an instrument of unusual merit.

The Cable Line of Pianos

(Synonymous to perfect Pianos.)

Mason & Hamlin, Kingsbury, Wellington, Dekoven, Conover, Cable, The highest standard of musical and artistic excellence. Manufactured in one of the most complete and largest factories in the world.
